AFTERCARE

Fees and Terms of Use

The aftercare facility is an extra service offered to assist parents. Space cannot be guaranteed and parents will need to have their child on a waiting list should it be full.

1) Numbers

- Regulations exist concerning ratios of learners to people in supervision, as well as other health and safety stipulations. Further, the school cannot supply more staff than is covered by regular income, so we do limit the service and take children on a 'first-come-first-served' basis.
- Preference will be given to those who have used the service previously and who are in good standing regarding payment.
- Places shall be allocated strictly according to the above and based on receipt of fully completed application forms to kingsschool@kslp.org.za or handed in to Mrs Latsky at the front office. Previous users may hand in new registration documents to duty personnel at the aftercare facility.
- Should the demand be such that it becomes viable to take on extra staff the school may choose to do so.

2) Casual users

Will only be accommodated under the following conditions:

- If there is space for casual use on any given day.
- Parents must book by 12am on the previous day by emailing preschool@kslp.org.za for the child[ren] to be put on the register for that day, and to ascertain if indeed there is space available. Charges are significantly higher for casual use – please read under "Costs" below.

3) Costs

- Parents must commit to either monthly or annual payments as outlined in the relevant tables. Fees are due in advance per month.
- Although we accept monthly portion payments over 11 months in order to assist those who cannot afford to pay a lump sum, please understand that it is indeed still a set payment for a term's service irrespective of public holidays, long weekends or school holidays. The term runs from the start of term to the start of the next term. Parents who cease use of the service are still liable for the full term's fee. **One term's notice** is required.
- *Pro rata* fees will only be applied to those who begin to use the service later than the start of each term.
- Where parents fall behind in their payments they run the risk of their place being given to others on a waiting list.
- No casual use will be permitted where outstanding fees remain.
- Discounted costs for more than 1 child are available only to permanent users, and are not applicable to casual users.
- The size of the service precludes annual payers being given discount.
- Service price will alter each year. These fees are published to the Schools Website, D6 Communicator and the Parent Body in term 4 of a preceding year. Parents are obligated to ensure that they are aware of the fees pertinent to their use

Please note that no Grade 000 to Grade R learners are permitted to remain unsupervised on the school premises 30 minutes after the end of their school day. Learners in Grade 1 to 7 are not permitted to remain unsupervised on the premises 45 minutes after the end of their school day, or official extramural activity. Aftercare hours are from 1:00pm or straight after sport/activity until 5:30pm. After-hour rates will apply after 5:30pm. Parents are required to either have fetched their child[ren] or to be part of the aftercare facility if there is space. Where the facility is full, it is the parent's responsibility to make alternate plans that will ensure that their child[ren] leave the school's grounds. Where not abided with, the school authorities will charge at rates for after-hours supervision by duty personnel.

Kind Regards

Terry Currin
